PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: S3 TRNG	SESSION NUMBER: 1
DATE OF SESSION: 880920	DATE OF REPORT: 880921
START: 1445	END: 1530
METHODOLOGY: CRV	VIEWER IDENTIFIER: 032

1. (S/NF/SK) MISSION: Access and describe in a stage one sense training target # 188, Ground zero, Aug 1945.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 3412/3216.
3. (S/NF/SK) COMMENTS: Solid stage 3 session, excellent sketches. 032's pace is lagging a little in stage 2, this needs to be corrected before it starts to cause problems (AOL). This target was chosen in hopes that 032 would pick up on the concept of nuclear energy. This did not occur as he avoided the exact moment of the event and simply described the site afterward. This behaviour on this site has occurred with trainees before. A nuclear explosion is a big AI and it is not surprising that unconsciously they avoid it.

4. EVALUATION: 4.
